

# Bagus Setiawan

iOS Developer

## Experience

### • iOS Developer @TolistApp

Personal Project

March 2021

Tolist is an app that helps in making daily tasks list to scheduled using Eisenhower Matrix. The Eisenhower Matrix is a simple method for considering the long-term outcomes of your daily tasks and focusing on what will make you most effective, not just most productive.

As a iOS Developer, I'm working for several task :

- Developed feature checklist with customized UITableView and UICollectionView.
- Implemented CRUD(Create, Retrieve, Update, Delete) in CoreData frameworks.
- Created local notification based on date.
- Published on the App Store.

### • iOS Developer @DialokalApp

Apple Developer Academy | UC, Surabaya

Feb 2020 - Dec 2020

Dialokal is an interactive game that will help to understand the local language in fun a way! Learn about vocabulary, commonly used sentence, and listen to the local's daily conversation.

As a iOS Developer, I'm working for several task :

- Collaborated with other 3 iOS developer on the team to complete features
- Explored new technologies and shared findings with the team.
- Worked in Agile environment for project and team management.
- Involved in planning and developing detailed project plans
- Customized UI screens with custom UITableView, UICollectionView, UIAlertview using Cococa Framework.
- Worked with GIT to merge the code and pull changes on the working branch
- Published app in Appstore.
